Threat Score: 28 / 100

AI Analysis Summary:

Taxonomy: phishing

BEC Subtype: payment_diversion

Justification: The email includes a personal phone number, which is an unusual and unexpected
request in a business context. Furthermore, the tone of the email is casual and does not align with the
professional tone typically expected in a business communication, indicating a potential phishing
attempt attempting to gain the victim's personal information.

PART B: Independent Expert Countersignature

I, the undersigned forensic examiner, have verified the cryptographic hash and trace origin of the
attached electronic record.
